Last week, Wikileaks released the largest leak of confidential documents in the history of the CIA. The Pariah Newsletter was quick to act and go through the leaked documents to find any information that the American people deserve to know. In the leaks, we found that; **the CIA has the ability to control your car and assassinate you, that the CIA is spying on foreign citizens via a base in Frankfurt Germany** and much much more! Take a seat and a get ready..these leaks are pretty intense.
